

West Virginia's **PERKINS** Collaborative Reserve Grant

APPLY NOW

A **new** and **improved** application designed to support career pathway alignment.

Perkins Collaborative Reserve funds are AGAIN being made available to strengthen and align CTE programs and partnerships between K-12 schools and community and technical colleges.

The Perkins Collaborative Reserve Grant program will support the implementation of one of the following projects:

- ▶ Development and implementation of career pathways aligned with high-skill, in-demand occupations
- ▶ Create joint and/or shared learning labs and instructional spaces for specified partnership pathways
- ▶ Design an integrative learning model that provides specialized educational experiences to students

Priority consideration will be given to proposals that present a well-defined and measurable plan to increase the state's college-going rate, or the percentage of recent high school graduates pursuing postsecondary education immediately after high school. Proposals should align with grant priorities, emphasize student success, and contribute to a stronger workforce in West Virginia.

REQUIREMENTS:

- All grant proposals must represent a PARTNERSHIP between a secondary and post-secondary educational institution – specifically, a K-12 school and its regional community and technical college.
- Funds are available through an annual application process, the number of grants awarded and the level at which they are funded will be determined by the number of applicants and availability of funds.
- Proposals must be submitted electronically through the Reserve Grant Application link.
- Projects may begin upon the funds being awarded and must be complete or sustainable by August 2026.

An informational webinar is available upon request.

APPLICATIONS DUE: APRIL 15, 2025
