**WV Council for Community and Technical College Education
Meeting of June 4, 2026**

ITEM: Institutional Operating and Capital Budgets for Fiscal Year 2027

INSTITUTIONS: All

RECOMMENDED RESOLUTION: *Resolved*, That the West Virginia Council for Community and Technical College Education approves the Fiscal Year 2027 operating and capital budgets for all institutions.

STAFF MEMBER: Misty Price

BACKGROUND:

West Virginia Code defines the power and duties of the West Virginia Council for Community and Technical College Education (Council). One such power is to review and approve institutional budgets - §18B-2B-6(d)(5) *Development of budget and allocation of resources for institutions delivering community and technical college education, including reviewing and approving institutional operating and capital budgets and distributing incentive and performance-based funding.*

Budgets for Fiscal Year (FY) 2027 were prepared using a comprehensive workbook to make comparison across the system consistent. The workbook included operating and nonoperating budgets, as well as capital projects budgets.

A cash balance analysis is also included for the current year to provide an analysis of the institutions' cash reserves. Cash balances as of March 31 of the previous and current year as well as the year end cash balances for both years are provided.

Based upon the review by Council staff, staff recommends approval of these budgets.

ITEM: Fiscal Year 2027 Higher Education Resource Assessment (HERA)

INSTITUTIONS: All

RECOMMENDED RESOLUTION: *Resolved*, That the West Virginia Council for Community and Technical College Education approves the Higher Education Resource Assessment (HERA) for Fiscal Year 2027 to the community and technical colleges as shown in Table 1 of the agenda item.

STAFF MEMBER: Misty Price

BACKGROUND:

West Virginia Code §18B-10-2 provides for the WV Council for Community and Technical College Education (Council) to establish a Higher Education Resource Assessment (HERA). The Council and Higher Education Policy Commission are to use funds generated through the assessment to meet general operating expenses, fund statewide programs, and to “offset the impact, if any, on financially needy students of any potential assessment increase” (West Virginia Code 18B-10-2(d)).

The passage of Senate Bill 448 in 2004, allowed the Council to adopt a procedure for assessing community and technical colleges at a fixed percentage of 1.5% of their prior year estimated gross tuition and required fees. The procedure minimizes annual changes in allocations by institution and is predictable for budgeting purposes. Council staff recommend continuing this assessment procedure for Fiscal Year (FY) 2027.

Table 1 shows the calculation of the HERA assessment at 1.5% of estimated gross tuition and required fees for each institution. The total FY 2027 assessment is \$787,568 – an increase of \$25,381 over the FY 2026 assessment of \$762,187. The net change is primarily due to an increase in tuition and fee rates from FY2025-2026. Staff recommends that HERA revenue be dedicated to statewide initiatives.

The recommendation is to approve the Higher Education Resource Assessment as presented.

Education Meeting of June 4, 2026**

ITEM: 2026-2027 Tuition and Fees

INSTITUTIONS: All

RECOMMENDED RESOLUTION: Information Item

STAFF MEMBER: Misty Price

BACKGROUND:

West Virginia Code §18B-10-1 (k)(1) requires the West Virginia Council for Community and Technical College Education (Council) to approve any resident tuition and fee increase greater than ten percent in any one year or where the increase would be more than seven percent per year, averaged over a rolling three-year period calculated by averaging the proposed increase with the increase for the immediate two previous years. Further, the 2024 legislative rule Series 32, *Tuition and Fees*, clarifies the process the Council will use to:

- a) Review supplemental and program fees; and,
- b) Review non-resident tuition rates.

Senate Bill 335 that was passed during the 2021 legislative session expanded the West Virginia Invests Grant to include academic program fees. The legislation requires all academic program fees charged in addition to base tuition to be approved by the Council to be eligible for the West Virginia Invests.

The resident tuition and fee increases for all institutions were below the threshold required for Council approval.

The Higher Education Price Index inflation rate was 3.6 percent for 2025. Tuition and fee data are provided in the following tables.

Table 1 reflects:

- a) Summary of the proposed academic year (AY) 2026-27 resident tuition and fee increases for all institutions.
- b) Revenue projections for resident fee increases using FY 2025 resident Annualized Full-Time Equivalent (AFTE) enrollment

Table 2 reflects:

- a) Tuition and fees breakdown between Education and General (operating funds), Auxiliary; and,
- b) Capital Fees for both proposed resident and non-resident tuition and fees.

Table 3 reflects each institution's rate of student financial aid participation for AY 2024-25.

Table 4 reflects the changes in general revenue funding for FY 2026 and FY 2027. 2-year institutions' state appropriations increased 6.45% on average over the FY 2026 budget. This is the effect of a fully funded higher education funding formula, as well as increases for salary enhancements and the employer share of PEIA premium increases.

Table 5 includes the FY 2026 projected education and general tuition and fees revenue using AFTEs plus the FY 2026 general revenue from state appropriations.

Table 6 reflects the last five years of tuition and fee increases, the five-year average annual increases, and the total dollar increase over the past five years.

REVIEW OF NON-RESIDENT AND REDUCED NON-RESIDENT (METRO) FEES

Table 7 – Full Cost of Instruction Calculation:

In accordance with Series 32, Council staff performed a review of non-resident and reduced non-resident (metro) tuition and fees for each institution. This review consisted of calculating the cost of instruction per AFTE using FY 2025 audited financial data. In addition, staff reviewed the non-resident and reduced non-resident (metro) tuition and fees for AY 2025-26 to ensure that none were below the lesser of the institution's cost of instruction per AFTE or the System average. All preliminary non-resident and reduced non-resident tuition rates that were not above either the minimum of the institution's specific instructional costs per AFTE or the System average were evaluated and resolved accordingly.

Table 8 – Non-Resident and Reduced Non-Resident Tuition and Fee Increases:

This table reflects the non-resident and reduced non-resident (metro) tuition and fee increases. This table also includes a revenue projection for the non-resident fee increases using the FY 2025 non-resident AFTE enrollment.

REVIEW OF SUPPLEMENTAL AND PROGRAM FEES

Tables 9 and 10:

These tables reflect supplemental fees and program fees for each institution. As noted previously, in accordance with Series 32, Council staff performed a review of all supplemental fees to determine if any fee affected more than 50% of the college's students. These tables were reviewed by Financial Aid and identify fees that are eligible to be covered by WV Invest Funds.

- **Table 9** reflects a listing of all supplemental fees.
- **Table 10** reflects a listing of all program fees.

BACKGROUND:

Series 35 is a legislative rule promulgated by the West Virginia Council for Community and Technical College Education under the authority of W. Va. Code §18B-2B-9. It governs the regulation of proprietary institutions, commonly referred to as business, occupational, and trade schools, that operate within or solicit students in the State of West Virginia. This legislative rule sunsets on June 5, 2027, and thus is presented for Council action with recommended revisions.

Title: The revised rule includes an updated title to include the word “Correspondence” to align with §18B-2B-9, resulting in the full title of “Correspondence, Business, Occupational, and Trade Schools.”

§135-35-1 General. Changed references throughout from “Business, Occupational, and Trade Schools” to “Proprietary Institutions” to provide a more contemporary and consistent reference to the sector (note that “Business, Occupational, and Trade Schools” and “Proprietary Institutions” are used interchangeably in §18B-2B-9).

§135-35-2 Definitions. Terminology updated throughout; for example, “School” deleted and replaced with “Proprietary Institution.” Updated definition of “financially sound.” Also includes modernized language across multiple definitions.

§135-35-3 Exemptions, “School” replaced with “proprietary institution” consistently in this and proceeding sections. Eliminated section 3.1.g, given that nothing in §18B-2B-9 suggests that the statute or the associated rule apply only to for-profit entities (proprietary

institutions can operate as not-for-profit organizations). Added “West Virginia Higher Education Policy Commission to the former 3.1.h (now renumbered 3.1.7)

§135-35-4 Application for Permit. Added requirement for a closure contingency plan as a new condition of permit issuance to strengthen consumer protection (§4.3.8).

§135-35-5 Approval to Offer Degrees. Approval to offer associate degrees terminology updated for institutions wishing to start offering associate degrees. Added provision referencing Commission Series 20 for institutions seeking bachelor's level authorization.

§135-35-6 Permit Application Fee. Terminology updated. No fee changes.

§135-35-7 Surety Bond Requirements. Terminology updated throughout. Eliminated section 7.2 on reduced rate surety bonds for institutions with longer-term presence in the state since statute specifies the surety bond amount as between \$50,000 and \$100,000. Updated financial provisions language in section 7.8 upon the recommendation of the chief financial officer.

§135-35-8 Maintenance of Records. Significant change—student record retention updated from 50 years or until mid-60s to “in perpetuity.” Security measures expanded to include third-party electronic storage.

§135-35-9 Change of Institutional Ownership. Terminology updated. No substantive policy changes.

§135-35-10 Institutional Closing. Terminology updated. Added requirement to inform Council and students of plans for third-party transcript custodian storage.

§135-35-11 Student Enrollment Contract. Terminology updated. Accrediting agency reference broadened from “national or regional” to simply “an accrediting agency” recognized by the United States Department of Education in section 11.4.

§135-35-12 Cancellation and Refund Policies. Significant change: refund policy for non-accredited institutions updated to align with federal Return to Title IV (R2T4) regulations, replacing the prior tiered percentage schedule.

§135-35-13 Advertising and Marketing. Removed requirement to disclose home study status. Added prohibition on asserting licensure eligibility without documented evidence from the appropriate licensing entity (§13.3.12).

§135-35-14 Student Complaints. Terminology updated. No substantive policy changes.

§135-35-15 Warning, Suspension, Withdrawal, or Revocation. Terminology updated throughout. Deleted sections 15.4.a to 15.4.d, which are redundant to the Administrative Procedures Act.
